OTHER BUSINESS/COMMENTS

A RFP as been released to contract for an assessment of the I-275 path from the existing termination south to the city of Monroe. This is a core study for recommendations to develop a trail up to ASTO standards including a vegetation management plan and soil studies.

Brian Blaesing suggested that within the next six months OTAC members may wish to add an item to the agenda for OTAC to determine their position on requesting additional feet of paved road shoulders for bikers. If interested, they should make a formal request expressing their position to the Road Commission for Oakland County (RCOC). Caution will be required so that it is not mistaken for a passing lane.

The RCOC will be exploring the possibility of expanding the paving of shoulders to three feet to assist in the maintenance of the road. It would be an excellent time to request a change in their policy to pave 4 feet for bike transit. This should be done before the next fiscal year budget it set.

Merle Richmond announced that last months Stallion Expo was a success.

Press releases were made available regarding the recreation opportunities in Oakland County.

The meeting was adjourned at 10:02.m.
